DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 9 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The phrase "the child seat" lacks proper antecedent basis.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Koulichkov.

Koulichkov shows the use of a combination of a product and a visible information

Carrier (12), wherein the product comprises a rigid structure (1) and has a recess in said structure and an anchorage secured (9) to the structure, the visible information carrier is dimensioned so as to fit into the recess and a flexible (8) tether connects the visible information carrier to the anchorage. Koulichkov shows a plurality of visible information carriers which may constitute a multi-page book altogether however if there is only one carrier remaining will constitute a single sheet.

Allowable Subject Matter

5. Claims 4-8 are objected to as being dependent upon a rejected base claim, but would be allowable over the prior art made of record if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Claim 9 would be allowable over the prior art made of record if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

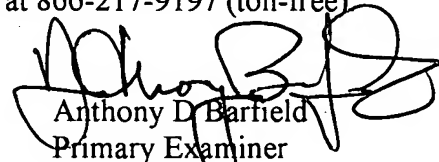

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Reference Nos. 6,189,968, 6,227,615, and 6,543,846 show features of the claimed invention.
